Protecting your family’s health and safety

Your family’s health and safety is our #1 priority. During this time, we’re taking extra precautions to keep your family safe.

Daily Virtual Fever Checks
Families and providers submit daily virtual fever checks before care to prevent risk of exposure.

Small Class Sizes
Small class sizes (avg. 6-10 kids) allow for individual attention and social growth, while limiting the spread of germs.

Rigorous Cleaning and Sterilization
Providers disinfect surfaces, toys and frequently touched objects every night to keep everyone healthy.
